

Fact vs. Fiction

Nordson Remains a Recognized Leader in Dispensing Systems for Automotive Manufacturing – That's a Fact!

For nearly 30 years, Nordson has engineered, developed, installed and serviced dispensing systems for automotive manufacturers and suppliers worldwide, meeting exacting application requirements. Today, we remain a solid force in the industry, preferred by material suppliers and manufacturers around the globe.

Recently, Nordson combined its internal resources to function more effectively in the lab and our manufacturing facility. As a global leader in dispensing technology, we remain committed to bringing the most innovative systems to our customers.

Here are the facts:

- **Nordson offers the widest range of application technologies available for the application of adhesives, sealants, gaskets and primers.**
- **We are the only manufacturer who can offer you both pressure-based and positive displacement dispensing systems.**
- **Nordson has nearly 30 years experience in engineered systems and is still going strong.**
- **Our commitment to customers' success and satisfaction is earned with every installed system and unparalleled throughout the industry.**
- **Nordson has met both ISO 9001:2000 and ISO 14001 standards to help our customers achieve environmental and economic goals.**
- **Backed by the resources of a global organization, we provide the highest levels of service, installation expertise and technical support to meet your needs.**
